KETHERIC BODY

The Ketheric Body gives us the connection with our spiritual purpose. This layer allows us to witness our inner gifts and gives us the insight in how to use these gifts for the betterment of the universe and ourselves.

The Ketheric Body connects us to the spiritual aspect of everything and everyone. All sense of separation disappears leaving us with a sense of oneness with the universe.

The following is the writing from Phillip Rafferty's Kinergetics Manual:

The Ketheric Template is composed of tiny threads of gold-silver light that look like a beautiful golden shimmering light which is pulsating very quickly. It is most connected to the Physical Body through the medulla oblongata. It extends out from the Physical Body past the Celestial Body. It is related to the Crown Chakra.

The Ketheric Template co-ordinates, choreographs, and regulates the functions and activities of all the energy fields. In so doing it provides powerful guidance and direction for the energy system as a whole. Like a conductor of a symphony orchestra, the Ketheric Template directs the efforts of the Light Bodies to produce a meaningful experience.

The Ketheric Template also co-ordinates the connection and unification of the information and records from the higher Spiritual Bodies, the Unification Bodies, with the records and information of the physical body from the lower Light Bodies.

As the Etheric Template is the template for the physical body, the Ketheric Template is the template for the spiritual concepts of the higher Light Bodies within the physical dimension, thus coordinates the assimilation of spiritual laws with physical laws. Its template form holds the physical template and creates the empty space which allows the spiritual grid structure to develop, and upon which all spiritually aware physical manifestation

The seventh level gives access to the divine mind, to a connection with the great pattern of life, the universal knowing, and a deep knowing of our perfection within our imperfections. If this body is active, individuals have the capacity to generate spiritual inspirational ideas, and they understand broad, general concepts about the world and existence.

If this body is under energy, individuals may find it difficult to understand the Universal Plan and hope they fit in. They may experience life as chaotic and random and their personalities will reflect this. They most likely will not understand the paradoxical concept of perfection and they may go into denial about their shadow side. Such individuals may feel disempowered about their destiny and feel isolated.

If this level is too strong, individuals will probably have problems making their ideas practical or be decisive about commitments.
